NEHAWU May Day Message to CTC and the People of Cuba

In spite of the interest of US imperialism in its downfall, Cuba remains a strong and integral country in the world ravaged by coronavirus today. Cuba's own achievements as well as the doctors, epidemiologists, nurses, engineers and other health experts sent to support countries in need of healthcare professionals, is one of the hallmark of socialist progress.

These achievements followed the victory of the revolution soon after breaking the back of imperialist's stranglehold over the island and banished the vassal Batista regime. Over 23 countries are recipients of this humane support.

The hundreds of Cuban doctors are saving lives, often working under very difficult conditions, in countries where healthcare is left barren by the profit motive that has denied millions access.

The Cuban intervention has been extended even to countries that hold steadfast their common policy, tailing the United States criminal blockade.

On the occasion of the May Day, we convey our fraternal solidarity to millions of workers and to the people of Cuba under the capable leadership of the Communist Party of Cuba.

We salute Cuba for being exemplary in its internationalism, solidarity and cooperation, and for leading the way in the fight for democracy, peace and social progress in the world.

Cuba leads the way!

Down with US imperialism!

Away with the criminal blockade!

Long life Cuba!

Viva Socialism!

Yours Comradely,

----- 2020/04/30

Zola Saphetha
General Secretary
